FOR IMMEDIATE RELEASE

PSC SETS GRAIN STORAGE RATES

LINCOLN – Grain storage rates will remain the same in state-licensed elevators this year.

The Nebraska Public Service Commission approved maintaining the existing Schedule A and Schedule E rates at 33 hundredths of a cent per hundredweight in a late June decision. The Commission conducted a public hearing on the rates on June 1.

Schedule A rates include feed grains and oil seeds such as corn, milo, wheat, and soybeans. Schedule E rates apply to dry edible beans and popcorn.

The Commission's decision fixes Schedule E rates from September 1 through August 1, 2006. Schedule A rates may be changed with a 30-day notice by the Commission.
