Applicant is a certificated carrier which holds Certificate Number B-1792. The certificate authorizes the transportation of passengers by bus in charter and special party service between all points in Nebraska over irregular routes. RESTRICTION: The

transportation of railroad train crews and their baggage is not authorized. HHS Designation: No.

The Applicant received authority to operate from the Commission under Certificate Number B-1792 on November 2, 2011. The Applicant is establishing its rates for use in this certificate. The Applicant represents to the Commission that the proposed rates are based upon anticipated expenses in vehicle maintenance, fuel expenses, insurance premiums, advertising and other overhead charges.

The Commission finds that the rates as proposed are reasonable and should be approved except for the proposed Promotion Coupons to the general public. This proposal states that these coupons could be offered "at the discretion of Commuter Express." The nature of this coupon is not specific enough to provide for certain regulation. The Commission has rejected these types of coupons in the past, and will not approve of this coupon in this application.

Commission staff has discussed the general public coupon issue with the legal representative of the Applicant. The Applicant has requested that the proposed rate for a general public coupon be amended to read "Promotional Coupons in \$2.00 increments may be offered to the general public in the form of newspaper and/or other printed media coupons." This is language for a rate that has been approved by the Commission in other rates on file. The Commission finds that this amended language is reasonable and should be approved.

In applications such as these, the Commission must find that an emergency situation exists. Such a situation exists in this application as the Applicant cannot begin operations under its certificate as granted until the rates are approved. Therefore, the Commission finds that an emergency basis exists that allows the Commission to grant the Application as amended on an emergency basis.

Upon consideration of the application and being fully advised in the premises, the Commission is of the opinion and finds that the application should be granted on an emergency basis effective November 9, 2011

O R D E R
